Did you know on any given day, 51% of kids go to school without breakfast? Breakfast is available everyday for each and every student at school. Don't let your child be one of the 51% who start the day without needed nutrition for their day.

Students who eat breakfast earn, on average a letter grade higher in math than kids who don't according to *Pediatrics Magazine*. Students who eat school breakfast have greater gains in standardized test scores and show improvements in math, reading and vocabulary scores. Healthy eating also correlates with fewer trips to the school nurse and less absenteeism. Come into the cafeteria for breakfast during March and give school breakfast a try - we'll have breakfast ready and waiting for you each and every morning!
